APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit No. 21183 is issued subject to the terms and conditions imposed in said Permit No. 21183 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a parshall flume. The location of the latter to be approved by the State Engineer. If well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030; therefore, the State retains the right to regulate the use of the water herein granted at any and all times. The combined appropriation under this permit and Permit 24569 shall not exceed 1050 ac. ft. per season.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.0 cubic feet per second but not to exceed a seasonal duty of 525.0 ac. ft. from any and/or all sources.

Actual construction work shall begin on or before October 1, 1969

Proof of commencement of work shall be filed before November 1, 1969

Work must be prosecuted with reasonable diligence and be completed on or before October 1, 1970

Proof of completion of work shall be filed before November 1, 1970

Application of water to beneficial use shall be made on or before October 1, 1971

Proof of the application of water to beneficial use shall be filed on or before November 1, 1971

Map in support of proof of beneficial use shall be filed on or before November 1, 1971
